

1 Sky at your rally

What happens if a politician shows up at your rally?

- 1 Ask them to address the 1 Sky priorities**
- 2 Allow the crowd a chance to ask questions**
- 3 Get it on film, and upload it on the Step It Up site**

Sample 1 Sky Questions

Here are some questions to ask politicians at your Step It Up rally to ensure they talk about the three 1 Sky priorities

1

Utilities are currently planning to build 150 new conventional coal-fired power plants. Studies show that if these plants are built, they would significantly increase global warming emissions. What is your plan to limit emissions from new coal plants?

2

In order to address the growing threat of global warming, scientists agree that we need to reduce global warming emissions 80 percent by the year 2050. What is your plan to cap and reduce greenhouse gas emissions?

3

Transitioning to a clean energy economy could create millions of new jobs and opportunities, more than is provided by the fossil fuel industry. By investing in renewable energy and efficiency industries, we have the opportunity to create green pathways out of poverty. How will you address both poverty and the environment through your plan to stop global warming?
